DISPLAY DETAILS

CONNECTION

Using battery power

This radio operates on two UM-4/AAA size. Push the battery compartment cover (4) outward to open. Insert two batteries in the battery compartment following the polarity diagram on the battery compartment. Replace the cover by sliding it back until it clicks into place. Remove the batteries if the unit is not to be used for a long period of time. This prevents any damage from leaking batteries.

SETTING THE CLOCK

Setting The Time

Press and hold the Time Set button (7). Press the Hour Set button (8) or the Minute Set button (9) to set the clock display to the right. Release the Time Set button. (7)

BACKLIGHT

Press Backlight button (11) to turn on the backlight. The backlight delays for approx. 20 secs.

LISTENING TO THE RADIO

Turn on the radio by turning anti-clockwise the Volume Control. (3). Press Scan button (2) once, the radio will automatically seek the radio station, also capture it. The display will show the radio frequency you are tuning to. To find your desired station, press Scan button (2) again to seek next station. To revert to the previous station Position (108 MHz), press Reset Button (1). To reset the receiver to the low-end (i.e. Fm 88 MHz). Then select your desired station again by pressing Scan button. (2)

Turn the Volume Control (3) to a comfortable listening level. Turn down the unit, by tuning the Volume Control (3) until clicks.

MAINTENANCE

Keep the unit away from heat or heater. Do not expose the unit directly under the sunlight. Keep the unit away from high humidity. Keep away from rain and water which could cause damage to the unit.

IMPORTANT

Weak batteries could cause weak reception, low sound output and distortion. When the unit is not in use for a considerable period, remove the batteries from the unit to prevent leakage which could cause damage to the unit.
